ABOUT ME

My name is **Haris Akram**. I am last year undergraduate student at the University of South Asia. I am a team player and a highly motivated individual willing to learn new technologies and methods. I am able to adapt new work cultures and always ready to accept new challenges. Looking forward to joining a reputable organization that provides opportunities for showcasing abilities and talent, as well as space for polishing skills, so that the process of continuous learning and development can be pursued as the organization's growth soars.

EDUCATION

BS COMPUTER SCIENCE

University of South Asia | Lahore

CGPA 3.52

2017 – 2021

SKILLS

HARD SKILLS: Programming, debugging, database knowledge

LANGUAGES: C++, Python and Familiar with Html, CSS, JavaScript
